

**SCHEUCH GENERAL
TERMS AND CONDITIONS OF PURCHASE FOR LOGISTICS
SERVICES
SUPPLEMENT: SELECTION OF SHIPS
Version: June 2016**

Dear business partners,

As part of the business relationship between us, one of the tasks that we assign to you involves selecting ships for transporting goods.

We wish to inform you that our transport insurance only provides coverage if the standards specified by the **Institute Classification Clause 2001** are adhered to.

Additionally, every ship must comply with the provisions of the ISM (International Safety Management) Code (which means that they require a valid **SMC/Safety Management Certificate**).

Firm bookings may only be placed for ships that do not satisfy these requirements if the insurer has provided written confirmation that this is permitted.

As an indication of your agreement, we would be grateful if you could return this document to us, dated and stamped/signed by an authorized signatory.

Place, date

Signature, stamp
